

## Maximum capacity 180 kg, up to 5,4 meters in height

The ELC 730/R lifter is one of the smallest and most practical in the world. Ideal for mounting awnings and pergolas, air conditioners, air ducts or more simply as an adjustable work surface.

Thanks to its size and low weight, it can be moved and handled very easily.

Indispensable for working in safety and comfort! Platform dimensions 80x40cm.

### IN EVIDENCE

- ▶ Always ready for use
- ▶ Security system
- ▶ Wheels with brake

### STRUTTURA

- Reliable and robust, it allows you to work in peace.
- The lifter is always ready for use, it does not require any particular assembly or mounting: it is sufficient to place it on the ground, position the stabilizing legs and place the platform on it (BC-02 supplied).
- Once positioned, loads up to 125 kg can be lifted comfortably with one hand thanks to the winch, up to 4.56 m.
- The ELC 730/R is equipped with safety systems such as the descent arrest in case of steel cable breakage and braked winch.
- Equipped with wheels with brakes to be able to position it where needed and stabilize it.
- Wheels for easy transport when closed at the bottom
- Loading height 1.45 m

## ACCESSORIES

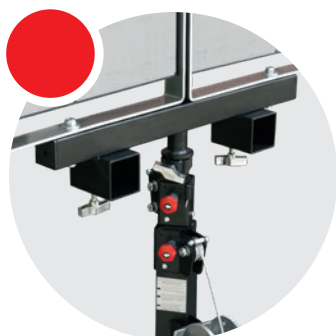

**WHEELS KIT RD-02**  
Flat freewheels

**LOAD SUPPORT  
CYLINDRICAL**  
Quick connection, easily  
interchangeable with the platform  
supplied as standard

**SUPPORT  
GAZEBO**  
Quick coupling, for lifting  
of assembled gazebo structures

**LED PANEL  
SUPPORT**  
Quick coupling, for lifting  
of LED lighting panels

**LED LIGHTS SUPPORT**  
Quick coupling, for lifting  
of LED lights from lighting
