

## Ideal for installers of awnings, windows, conditioners

### IN EVIDENCE

- ▶ Certified for two docked operators
- ▶ Assembly in less than 3 minutes
- ▶ Low weight, easy to carry

### STRUCTURE

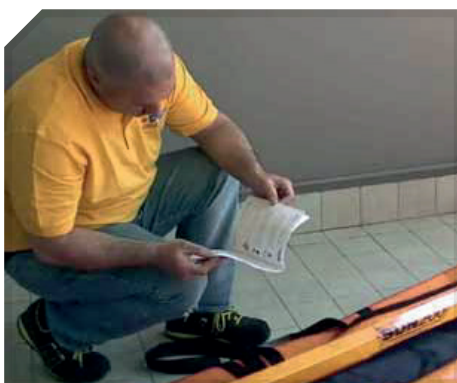

- Made of stainless steel, compact in size, with low weight (18 kg) and convenient to carry thanks to the special bag.
- The use is simple and safety is absolute.
- It leaves the operator maximum freedom of movement, guaranteeing his safety without slowing down work.
- Installation is quick, requires no tools and does not soil the surfaces with which it is in contact, thanks to the particular washable rubberized surface.
